SCRANTON PRESCHOOL

WHATS HAPPENING AT SAC?

We have two more months of school. Time is getting away from us but we are plugging away into our learning. Science is alive in our classrooms with bugs, weather, soil, animal life cycles, airplanes, easter eggs and more. Students are continuing to work on their letter sounds, recognition, rhyming, number fluency, and handwriting. Our students are getting more Kindergarten ready each day.

Parent Education

EXECUTIVE FUNCTION IS...

a set of mental skills that allow us to plan, organize, prioritize, pay attention, remember details, and manage time and space effectively.

EXECUTIVE FUNCTION IS IMPORTANT BECAUSE...

Children with strong executive function skills are better equipped to regulate their emotions, control impulses, and engage in goal-directed behavior (all things they will need later in life).

SOME WAYS EXECUTIVE FUNCTION IS DEVELOPED THROUGH PLAY...

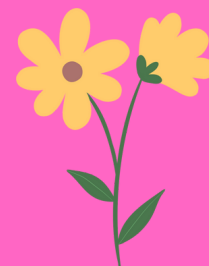

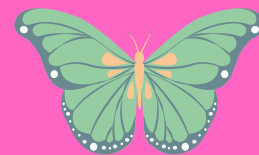

Imaginative play: Pretend play allows children to practice planning, organization, and problem-solving skills as they create and act out scenarios.

Building with blocks: Building structures with blocks helps children develop spatial awareness, planning, and organization skills

SOME WAYS EXECUTIVE FUNCTION IS DEVELOPED THROUGH PLAY...

Dressing up and role-playing: Dressing up and role-playing encourages children to practice empathy, social skills, and cognitive flexibility.

Outdoor play: Playing outdoors provides opportunities for children to

KINDERGARTEN ROUNDUP

We know that this time of year can be scary for parents of first-time Kindergarteners therefore we ask that you please join us for a special day to celebrate this milestone in your children's lives. OAC is so excited to meet all of your children and welcome them into their special school. A team of teachers, support staff, and administration will be there to answer all your questions and give your child an opportunity to look more at Kindergarten.
