

Learning Services Update - April 2025

Dr. Carrie Mugridge

Goal 4: Community Involvement

To support our Board of Education Goal 4.1 — *"Build trust with the community and staff through effective communication and improved transparency"* send out a bi-monthly Charger Learning Services Newsletter to families. This update provides a consistent and clear channel for sharing curriculum highlights, assessment timelines, helpful tips for supporting learning at home, and important educational updates. It's one way we keep families informed, involved, and connected to the incredible work happening in our schools.

Learning Services Department Update
