Dear Board of Education,

Data quality is crucial for securing the maximum funding available for our students, and as a district, we have been diligently working to strengthen this area. My data team and I convene two to three times each year to review state updates and reflect on our data entry processes. This ongoing collaboration is essential to our success, and I want to highlight the dedication of my team. They take great pride in their work and consistently prioritize the best interests of our district.

Below, you will find the enrollment numbers for each building as of count day, September 22, 2025. Please note that it is essential for students to be present either the day before, the day of, or the day after this date in order for us to receive funding on their behalf. I have also provided the last few years enrollment numbers.

Thank you for your continued support and for recognizing the importance of accurate data in sustaining and advancing the opportunities we can provide for our students.

Sincerely,

Kaitlyn Ball

Our UG number is actually going to be 8 adult virtual students to start the year. This number varies all year up and down. This is a program through GreenBush.
